Oliver Adjustable Chaise

Oliver Adjustable Chaise

Designer:
Ann Marie Vering

Product Dimensions:

Height: 37.5"

SH: 14.5"

Wide: 35"

Depth: 80"

Weight: 163 lbs.

Product Description: **Oliver's** signature design elements – sculptural, low-profile metal frames and weather-proof nautical rope – are seamlessly translated into the **collection's** timeless chaise. Equipped with sturdy, all-terrain wheels and an ingeniously simple X bar that lets you easily adjust the incline of the back, the **chaise's** angular design highlights Brown **Jordan's** unrivaled expertise in metal craftsmanship and showcases its innovative use of woven rope. This durable, heritage material – “a modern, updated look to **wicker**” - is handwoven onto the chaise frames by skilled artisans in Indonesia. Impeccably tailored cushions complete the design.

Operational/Functional Aspects:

- Extruded and cast aluminum frames
- Handwoven polypropylene rope
- Available in all Brown Jordan fabrics and finishes and two rope colors
- Premium tailored cushions
- High-resiliency (HR) foam cushion construction
- Velcro attachments to keep cushions in place

Colors of Finishes Available:

24 finishes available.

CASTELLE

Chaise Lounge

Largo Chaise Lounge

Product Description: The Largo chaise lounge by Castelle is a harmonious fusion of cast aluminum and natural elements that gracefully elevate outdoor luxury. Every detail of this lounge piece is thoughtfully crafted to evoke dignified style and comfort. The artistry of its tubular aluminum frame with striking angles in an elegant silhouette reflects a sense of strength and calm. **Largo's** textured woven aluminum accents – hand-painted to look like authentic weave – add character and warmth to its sleek architectural aesthetic.

Operational/Functional Aspects:

Colors of Finishes Available:
Any stocked Castelle finish.

Dune Sling Armless Stacking Chaise

Product Description: The clean lines of this stacking chaise are created using a Marine Grade Polymer (MGP) frame with durable powder-coated aluminum internal working components. Comfortable yet breathable mesh sling seating support provides a splash of color and long-lasting durability, whether in a commercial setting or in a residential back yard. Eight MGP frame color options pair with the possibility of 82 mesh sling fabrics, 82 padded mesh sling choices or 140 Sunbrella acrylic padded sling options.

Operational/Functional Aspects:

The solid, non-porous nature of the Marine Grade Polymer frame provides a chaise with enough weight to stay put in strong breezes. The stacking design makes it convenient and the MGP is comfortable to the touch on hot or cold days. The integrated non-pinch back support design allows for effortless angle adjustment without concerns for dangerous pinch points. Solid polymer construction makes this chaise a great choice for partially submerged pool tanning ledges.

Colors of Finishes Available:

MGP: Snow, Warm Grey, Desert, Beachwood, Kona, Storm, Graphite, Black

Leeward Cushion Armless Chaise

Product Description: Frame is constructed with durable Marine Grade Polymer (MGP), with a rugged internal aluminum frame to add additional rigidity and trouble-free moving components. Classic lines are complemented by a supportive 6-inch-thick cushion clad in Sunbrella Acrylic. Multi-position back can be upright for comfortable reading or laid flat for sunbathing. Construction is designed that it can double as a long bench when laid flat. Choose from eight MGP/Aluminum frame colors and from 142 Sunbrella cushion fabrics. If that is not enough, the rest of the Sunbrella stock line can also be ordered, making it sure to match and décor.

Operational/Functional Aspects:

The durable and solid Marine Grade Polymer frame can be used on any surface, including the popular water-covered “**Baja Shelf**” featured in many modern pools. The unique and pinch-free, integrated-adjustment mechanism for setting the back angle ensures that the perfect position is attained without loose parts or pinched fingers. Laid flat, the construction is durable enough to double as a bench when company is over. Optional connector allows you to create a double chaise and hidden wheels in back legs allow for easy repositioning on the patio.

Colors of Finishes Available:

MGP: Snow, Warm Grey, Desert, Beachwood, Kona, Storm, Graphite, Black
