San Simeon  
EverTeak™  
Sling Dining  
Bench

**Product Description:** Alfresco Home is pleased to introduce the San Simeon EverTeak™ Sling Dining Bench. EverTeak™ is an innovative engineered polymer composed of unique virgin plastics to look and feel like real wood and is completely recyclable. Coloration is all the way through, and the material is manufactured with premium UV inhibitors. The San Simeon EverTeak™ Sling Dining Bench will be featured in two elegant maintenance-free colors – a light “Mineral” color and a darker “Alpaca” color. A unique and comfortable sling seat made from PhiferTex finishes off this bench for a truly one-of-a-kind piece of functional outdoor dining furniture.

**Operational/Functional Aspects:**

**Colors of Finishes Available:**

Mineral or Alpaca

Montecito Bar

**Product Description:** The Montecito Bar features a multi-material design in a clean, architectural style. The natural look and color of the synthetic teak is framed by the dark aluminum trim and is nicely complemented by the oyster-finished concrete top shelf. The Montecito Bar is constructed using a combination of durable, low-maintenance synthetic wicker slats; lightweight concrete top and a powder-coated aluminum frame.

**Operational/Functional Aspects:** The bar unit includes three full-depth drawers on stainless steel slides, four shelves and door compartment. The closed compartment is sized to fit a small refrigerator and includes a plug hole on the bottom. The unit is on leveling glides.

**Colors of Finishes Available:**

Sand Synthetic Teak, Oyster Concrete, Shadow Aluminum
